    EXPERIMENT
SPACE COUNTER
                                           You have been given the task of making the content on a social media platform more user-friendly. Your task is to find and return an integer value
                                           representing the count of the number of spaces in a given string S.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  ,R23MEOF
                                           Input:
                                           A string S
    3BR23WF
                                           Output:
                                           Return an integer value representing the count of the number of spaces in a given string S.
  3ME003
                                          Example:
                                           Input:
                                          Hello World Hey
                                           Output:
                                          2
  3BR23ME1
                                                                                                                                                                                                                                                                                                                                                                                                                                                23MEOU
                                                                                                                                                                                                                              703 3BX
